Dear ,

Many thanks for expressing an interest in the PRISMATIC research study - your practice is one of nearly half within the ABM UHB area that are keen to be involved in this ground breaking study. We have been working with our research partners at ABM UHB, NHS Wales Informatics Service and Welsh Government to put in place the next steps to enable the research to progress, and we are now ready to confirm agreements to take part. To confirm your participation please complete the GP Agreement form that is enclosed – and return this using the FREEPOST envelope, or Fax on 01792 513423 by March 31st.

We have also included a number of information documents that provide further study details:

- The PRISMATIC newsletter is the first of what will become regular news updates through the study
- The research flyer provides a one page outline of the study
- The Research (protocol) Summary provides a more detailed overview. This document was produced following discussions with representatives of the BMA, LMC and GPC Wales.

If we don't hear from you by the end of March a research officer (Carol, Zoe, Vaughn or Rebecca) from the National Institute for Social Care and Health Research may contact you to check whether you have any queries. The research team at Swansea University are available for any queries – please do get in touch. You can email prismatic@swansea.ac.uk or contact Claire Evans on 01792 606685 or Mark Kingston on 01792 606844.

We are about to launch a PRISMATIC website – so any queries that do come in will help us to complete a Frequently Asked Questions section on the website.

We look forward to hearing from you.

Mark Kingston on behalf of the research team, PRISMATIC Research Officer, Swansea University
