

999 EMS RESEARCH FORUM

POSTERS

Reports of Research

1. Use of the pre-hospital 12 lead electrocardiogram and mortality in acute coronary syndrome - analysis of 424,866 patients from the Myocardial Ischaemia National Audit Project (MINAP) registry.

T. Quinn, S. Johnsen C.P. Gale, H.A. Snooks S. McLean, M. W. Woollard, C.F. Weston.
University of Surrey

2. Sicker to Start with: COPD exacerbation and distance to hospital.

L. Bassir, Dr L. Dykes & Dr R. Perry
Ysbyty Gwynedd, Bangor, North Wales

3. The feasibility and practicalities of prehospital clinical trials

K. Hargreaves, S. Goodacre
University of Sheffield

4. The effect of a national ambulance Quality Improvement Collaborative on performance in care bundles for acute myocardial infarction and stroke

A Niroshan Siriwardena, D. Shaw, N. Essam, F. Togher, Z.Davy, A. Spaight, M. Dewey on behalf of the ASCQI Core Group
University of Lincoln

5. Investigating patients experiences of hypoglycaemic emergencies

D. Fitzpatrick, Dr E. Duncan
Scottish Ambulance Service

6. How do people with chronic conditions experience care in the Hywel Dda Health Board area? Findings from interviews with patients.

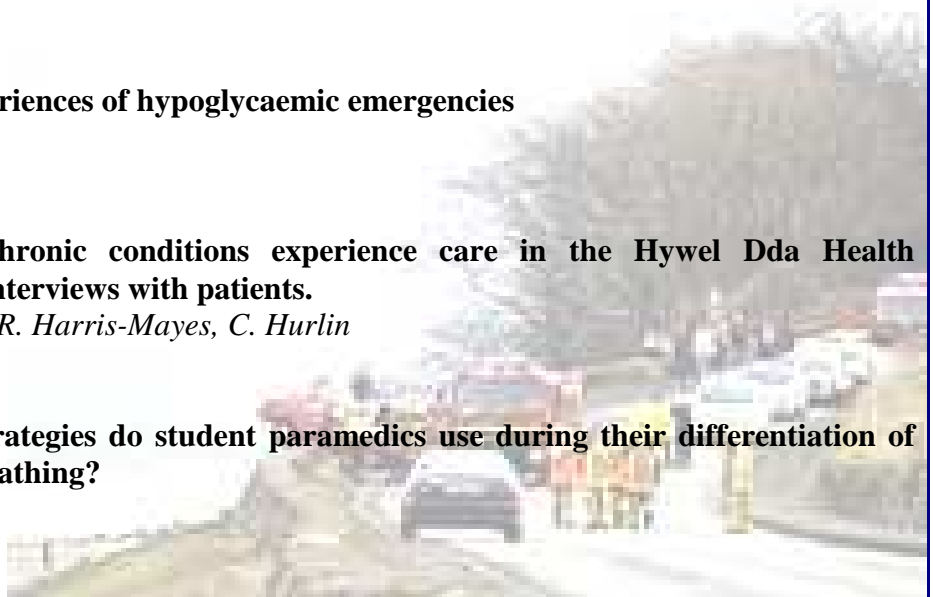

B.A. Evans, S. Morrison-Rees, R. Harris-Mayes, C. Hurlin
Swansea University

7. What clinical reasoning strategies do student paramedics use during their differentiation of patients with difficulty in breathing?

M. Catterall, J. Williams
University of Hertfordshire

8. Stroke mimics in the pre-hospital setting

M. J Edwards, Dr R. T. Fothergill, Dr J. Williams, Dr P. Gompertz
London Ambulance Service NHS Trust

9. What do users value about the emergency ambulance service?

*F. Togher, V-H. Phung, J. Turner, A. N. Siriwardena, A. O' Cathain,
University of Lincoln*

10. Leadership, innovation and engagement in quality improvement in the Ambulance Services Cardiovascular Quality Initiative: cross sectional study

*N. Essam, V-H. Phung, Z. Asghar, A. Spaight, A. N. Siriwardena
East Midland Ambulance Service*

11. Does current pre-hospital care for patients with a mental illness reflect best practice guidance?

*J. Shaw, G. Viridi, R. Fothergill
London Ambulance Service NHS Trust*

12. Mountain Emergency 999 Calls: Do Mountain users know how to request mountain rescue assistance using the 999 system and Do UK Ambulance Services have formal procedures to handle calls from inaccessible locations?

*Julia Kramer, Ben Hall, Linda Dykes
Ysbyty Gwynedd, Bangor, North Wales*

13. Ambulance Service Treat and Refer Guidelines: A Qualitative investigation into the use of Treat and Refer guidelines by Ambulance Clinicians

*K. Colver, P. Abhyankar, C. Niven,
D. Fitzpatrick, Professor L. Dalglish
Scottish Ambulance Service*

14. Resource planning and deployment of Welsh Ambulance Services

*Leanne Smith, Paul Harper, Vincent Knight, Janet Williams
Cardiff University*

15. An Assessment of the introduction of a Sepsis Screening Tool on paramedic pre-alerts into North East hospitals

*G. McClelland, P. Younger
North East Ambulance service*

Protocols, Study Design and Feasibility Studies

16. An assessment of the feasibility, and potential impact of a dual intervention to improve self-referral rates to diabetic care following hypoglycaemic emergencies.

*Dr E. Duncan, D. Fitzpatrick
Scottish Ambulance Service*

17. Developing a model to involve service users in a multi-centred trial of a complex intervention in pre-hospital emergency care

*M. Koniotou, M. Halter, B. A. Evans, A. Porter and S. Gaze on behalf of the the Safer 2 Team
Swansea University*

18. SAFER 2 Support and Assessment for Fall Emergency Referrals

*S. Gaze, H. Snooks, The SAFER study Team
Swansea University*

19. A feasibility study to compare treatment pathways for head injury patients: the Head Injury Transportation Straight to Neurosurgery (HITS-NS) trial

*G.McClelland, B. Bissett, W. Russell, F. Lecky
North East Ambulance Service*

20. Predictive Risk Stratification Model: A Trial In Chronic Conditions Management (PRISMATIC)

*M. R.Kingston, H. Snooks, H.Hutchings, I.Russell, B. A. Evans
Swansea University*

21. Can Ambulance Paramedics use FRAX (the WHO Fracture Risk Assesment Tool) to help GPs improve Future Fracture Risk in Patients that Fall?

*Dr S.Clarke, J. Appleby – Felming, Prof.J. Benger, Dr R. Bradley, Dr R. Goberman- Hill, Prof. L.Shepstone, Dr E. Marques, R. Greenwood, Prof.C.Salisbury, Dr B. Simmonds
University Hospitals Bristol*

22. Development of Complex Intervention in emergency Care of Falls for Evaluation:Implementation of the MRC Guidance

*R.Chatters, S.Mason, H.Snooks, The SAFER 2 team
Swansea University*

23. Prehospital randomised assessment of a medical compression device in cardiac arrest (PaRAMeDIC) trial protocol

*G. Perkins, S. Gates, M. Woollard, M.W. Cooke, C. Deakin, J. Horton, R. Lall, S. E Lamb, T. Quinn, A. Slowther
University of Warwick*

Reviews and Discussion Papers

24. Frequent callers to emergency medical services: current knowledge and direction of future research

*J.Scott, P.Dawson, A. Strickland,
York St John University*

25. Paramedics' perceptions of caring for those who Self Harm: Literature review and development of underpinning theory

*N. Rees, H. Snooks, F. Rapport
Welsh Ambulance Service NHS Trust*

26. Prehospital outcomes for ambulance service care: systematic review

*V-H.Phung, A. Booth, J. Coster, J. Turner, R. Wilson, A .N. Siriwardena
Andrew Booth, Joanne Coster, Janette Turner, Richard Wilson, A Niroshan Siriwardena
University of Lincoln*
